ABOUT ME

Results-driven Computer Science undergraduate at GTBIT with hands-on expertise in building high-performance, responsive web applications using React and Tailwind CSS. Passionate about crafting clean component architectures, smooth UI interactions, and scalable full-stack solutions that deliver measurable impact. Actively seeking opportunities to contribute to innovative engineering teams.

EDUCATION

Guru Tegh Bahadur Institute Of Technology | 2023-Present

B.Tech - Computer Science & Engineering | Percentage - 83.53%

Kulachi Hansraj Model School

Class 12 (CBSE) – 85.6% | Class 10 (CBSE) – 89%

PROJECTS

Personal Portfolio

React · Tailwind CSS | Frontend Project

- Developed a fully responsive portfolio website to showcase projects, skills, and professional experience with a polished dark-theme UI.
- Applied image lazy loading with the native loading='lazy' attribute and Intersection Observer API, reducing initial payload by ~50% on media-heavy sections.
- Implemented route-based code splitting using React Router v6 and dynamic imports, decreasing bundle size and improving Lighthouse performance scores.

Quick-Legal

React · Node.js · Tailwind CSS · Gemini API | Full-Stack Web Application

- Developed an AI-powered legal document analyzer that evaluates Terms of Service and contracts for hidden risks, reducing manual review time significantly.
- Integrated the Gemini API to generate a trust score and highlight key risk factors within seconds of document upload.
- Implemented lazy loading for document sections and code-split heavy AI modules, improving initial page load performance by ~40%.

Scholar-Sync

React · Node.js · Tailwind CSS · YouTube Data API · Gemini API | AI Research Tool

- Built an AI-powered research tool that returns 9 curated videos for any entered topic — 3 each by most relevant, longest, and shortest — alongside an AI-generated quick summary of the topic.
- Implemented React.lazy() and Suspense for component-level lazy loading, cutting bundle size by ~35% and achieving a sub-2s Time-to-Interactive on first load.
- Built a responsive, mobile-first layout that adapts seamlessly across screen sizes using Tailwind CSS utility classes.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript (ES6+), HTML5, CSS3, React.js, Tailwind CSS, Bootstrap, Node.js

Databases: MySQL, MongoDB

Tools & Platforms: Git, GitHub, VS Code

ACHIEVEMENTS & ACTIVITIES

- Successfully delivered 3 full-stack projects from ideation to deployment within one academic year.
- Active contributor to college tech community, participating in hackathons and coding competitions.
